Library Management System
Pergamon Mu

What is Pergamon Mu?

There are a number of fantastic library management systems on the market and Schools Libary Services can help you choose the one that best suits the needs of your school and your budget.

Pergamon Mu is a simple but powerful system from Esferico. it is easy to install, reliable and a cost-effective option for primary schools looking for the basic library functions of issuing and returning books, a searchable library catalogue, sending out overdue reminders and generating statistical reports.

The software can be installed as a standalone on one machine or networked through your school server. A cloud-based version is in development.

Pergamon Mu offers streamlined access to:

- Readers
- Catalogue
- Circulation
- Reports

How much does it cost?

Pricing structure

- £500 for the first year (includes installation, support* and software updates
- £275 for support per year for subsequent years
- £50 to convert book data from your existing system if you have one

*First line support is provided by your local Schools Library Service (SLS) or a designated SLS if one does not exist in your authority.
