

How much does it cost?

eBooks Platform

Schools who subscribe to their local Schools Library Service (SLS) may be offered this service as part of their annual subscription. Please contact your SLS manager for further details.

Subscription for schools who do not subscribe to their local SLS:

- Primary Schools £500 per annum
- Secondary Schools £500 per year group per annum

I would like to find out more about the ebooks platform:

How do you borrow eBooks?

Our SLS ePlatform is a library lending system designed to make the borrowing and reading of eBooks simple and enjoyable.

Setting up users is simple and the eBook reading process an enjoyable and seamless one.

All you need is:

- ◆ A valid library card/login or student username & password
- ◆ Internet access
- ◆ A compatible device to read an eBook on (a computer, tablet or smartphone) with a modern web browser (eg. Google Chrome, Firefox, Internet Explorer 10, Safari etc.)

What devices can you use ePlatform on?

- ◆ Apple devices (eg. iPhone, iPad or iPod Touch (requires iOS7 or higher))
- ◆ Android devices (eg. Galaxy Tab, Galaxy S, Galaxy Note, HTC devices)
- ◆ Windows tablets (NOT Windows phones) Desktop or laptop (PC or Mac). Read via your browser or download reader software and create an Adobe ID
- ◆ Kobo eReader, Sony eReader or Nook eReader. Download Adobe Digital Editions and create an Adobe ID

How do you read eBooks?

The simplest way to read eBooks is to access the free ePlatform app. Through this app your library users can easily find your library, then access all your titles and read them via their browser – even if offline, all via their tablet or smartphone.

The app can be accessed on an iPad, iPhone, Galaxy and most other devices. Using it is as easy as 1-2-3:

1. Download the ePlatform app from the Apple, Google Play or Windows app stores
2. Log in - you'll only need to do this once
3. Search for, borrow and read any book you want

Both the ePlatform app and website allow eBooks to be read via your browser. This means users can read either online or offline, and have access to a full range of display settings so they can customize their reading experience to match their preferences.

Alternatively, users can choose to download eBooks; some titles, for example those in PDF format, can only be read this way. To read a downloaded title, users will also need free reader software such as Bluefire and an Adobe ID for reading DRM-protected eBooks.
