Schools Library Services UK

AS  EL

Leading Excellence in Library Services for
Children, Young People and Schools

Schools Library Services offer a unique, value for money service to schools - all phases and all sectors. The way each service operates varies from authority to authority.

Essentially, a Schools Library Service will:

- Provide **carefully-chosen, quality and up-to-date resources**, tailored to the topics and ages of the children you are teaching, delivered to your door – an invaluable service that saves you time and money
- Provide an **exciting range of quality fiction and non-fiction** to help you instil a **love of reading** in all your pupils/students
- Offer **expert advice and guidance** in planning reading events, creating an excellent school library and stimulating classroom book corners, choosing books for your school, teaching information skills and all aspects of using and managing resources in schools

Schools Library Services are run by experienced, qualified librarians who have in-depth knowledge of the curriculum and of children's literature. Most schools subscribe to their local Schools Library Service on behalf of all their teachers but some opt for a *pay-as-you-go* service.
